

Ensmac - Bordeaux INP*

Graduate school of
Material Sciences, Food Science and Chemistry

* one of the 7 graduate schools of Bordeaux INP

ENSMAC - Bordeaux INP's engineering programmes (Master's - year 5) are open to students from all around the world, through exchange programs such as Erasmus+, Brafitec, Campus France.

The school is strongly committed to advanced research and industrial partnerships. Bordeaux and its surrounding region provide excellent living conditions : economic vitality, lively cultural scene, historical heritage, beautiful atlantic coastline.

4 engineering programmes (Master's) including 2 work-study programmes

Food Science and Bioengineering

Food Science and Industrial Engineering

Chemistry and Physical Engineering

Materials Science

& 3 Masters of Science (in English)

Applied Formulation of Polymers and Colloids

Inorganic Materials Design and Processing

Micro & Nanotechnology

Ensmac - Bordeaux INP*

Graduate school of Materials, Food Science and Chemistry

* one of the 7 graduate schools of Bordeaux INP

International

- ▲ **over 50 partnerships**
- ▲ **100%** graduates have spent long periods of time abroad
- ▲ **B2** required level of English for graduates
- ▲ **7 foreign languages** taught

Industrial partnerships

- ▲ **150 lecturers from the industry**
- ▲ Network of **over 2000 companies**
- ▲ **Over 6000 alumni**

Joussot Dubien Award

- ▲ **5 000€** scholarship for a student doing his internship in prestigious universities

Student life

- ▲ **7 associations** - 20 sports and cultural clubs
- ▲ **40 sports offered** > Sports tournaments, fun events and activities throughout the year

Employment Prospects

- ▲ **200** graduates per year
- ▲ **1 out of 2 employed** graduates signs a contract before leaving school

Research Transfer

- ▲ **8 joint research centers** in the following fields : *Chemistry, Physics, Nutrition, Neuroscience, Oenology, Polymers, Soft Condensed Matter, Molecular Science, Materials and System Integration, Nanotechnologies*
- ▲ **61 academics and researchers**
- ▲ **100 PhDs, Post-Docs**
- ▲ **1** chair in Sustainability and Recyclability of Materials for Energy
- ▲ **2 630 m²** dedicated to technology transfer activities
